2020/21
CALL FOR PHD APPLICATIONS
33 POSITIONS

IMT School for Advanced Studies Lucca's multidisciplinary PhD Programs offer a unique and characteristic patrimony of competences within the broad framework of the analysis and management of a plurality of systems. IMT attracts bright students, young researchers and professors through competitive and transparent procedures at an international level.

All positions are fully-funded for up to four years (no tuition fees), with a possibility of graduating after the third year.

The 32 admitted candidates will receive a scholarship (which will amount to 15,343.28 € gross/year), free housing in the School's residential campus and free daily access to the canteen.

One additional "Marie Skłodowska-Curie Innovative Training Networks" research grant will be available for the PhD Program in "Systems Science", track in "Computer Science and Systems Engineering", for the project "Multi-field and multi-scale modeling of fracture for renewable energy applications". All students will also have free access to the library.

Candidates can apply if they receive their undergraduate degree no later than October 31st, 2020. Classes will start on November 2nd, 2020.
